Lab 3

Discussions

- In few words answer the following questions based on the tasks and steps you performed in Lab_3:
    - Did the AI assistant provide a consistent response for your input prompts?
    - Did the AI assistant provide correct response when asked about the day after tomorrow?
    - If you start the rasa model/server without starting the rasa action server, and you enter the following prompt: "what time is it now?", what output does rasa model/server print?
